Dated:- 10.03.2026

PRESS RELEASE

Many security features are provided on the Question Papers. These include QR codes to verify the genuineness of the question paper in case of suspected security breach.

On 09.03.2026, examination of Mathematics was conducted for class 12. In a few question paper sets, it appears that when one of the given QR codes is scanned, it links to a YouTube video.

It appears that this has raised concerns about the veracity of the question papers amongst concerned students and their parents.

It is hereby confirmed by the Board that the question papers are genuine. The security of the question papers remains uncompromised.

While the concern about the veracity of the question papers is put to rest, the matter has been viewed seriously and necessary steps are being taken by the Board to ensure that such issues are not repeated in future.
