

Marking Scheme
Strictly Confidential
(For Internal and Restricted use only)
Senior School Certificate Examination, 2026
ECONOMICS (SUBJECT CODE – 030)
(PAPER CODE – 58/2/1)

General Instructions: -

1	You are aware that evaluation is the most important process in the actual and correct assessment of the candidates. A small mistake in evaluation may lead to serious problems which may affect the future of the candidates, education system and teaching profession. To avoid mistakes, it is requested that before starting evaluation, you must read and understand the spot evaluation guidelines carefully.
2	“Evaluation policy is a confidential policy as it is related to the confidentiality of the examinations conducted, Evaluation done and several other aspects. Its’ leakage to public in any manner could lead to derailment of the examination system and affect the life and future of millions of candidates. Sharing this policy/document to anyone, publishing in any magazine and printing in News Paper/Website etc may invite action under various rules of the Board and IPC.”
3	Evaluation is to be done as per instructions provided in the Marking Scheme. It should not be done according to one’s own interpretation or any other consideration. Marking Scheme should be strictly adhered to and religiously followed. However, while evaluating, answers which are based on latest information or knowledge and/or are innovative, they may be assessed for their correctness otherwise and due marks be awarded to them. In Class XII, while evaluating competency-based questions, please try to understand given answer and even if reply is not from marking scheme but correct competency is enumerated by the candidate, due marks should be awarded.
4	The Marking scheme carries only suggested value points for the answers. These are in the nature of Guidelines only and do not constitute the complete answer. The students can have their own expression and if the expression is correct, the due marks should be awarded accordingly.
5	The Head-Examiner must go through the first five answer books evaluated by each evaluator on the first day, to ensure that evaluation has been carried out as per the instructions given in the Marking Scheme. If there is any variation, the same should be zero after deliberation and discussion. The remaining answer books meant for evaluation shall be given only after ensuring that there is no significant variation in the marking of individual evaluators.
6	Evaluators will mark(√) wherever answer is correct. For wrong answer CROSS ‘X’ be marked. Evaluators will not put right (✓) while evaluating which gives an impression that answer is correct and no marks are awarded. This is most common mistake which evaluators are committing.

7	If a question has parts, please award marks on the right-hand side for each part. Marks awarded for different parts of the question should then be totaled up and written in the left-hand margin and encircled. This may be followed strictly.
8	If a question does not have any parts, marks must be awarded in the left-hand margin and encircled. This may also be followed strictly.
9	If a student has attempted an extra question, answer of the question deserving more marks should be retained and the other answer scored out with a note “ Extra Question ”.
10	No marks to be deducted for the cumulative effect of an error. It should be penalized only once.
11	A full scale of marks 80 has to be used. Please do not hesitate to award full marks if the answer deserves it.
12	Every examiner has to necessarily do evaluation work for full working hours i.e., 8 hours every day and evaluate 20 answer books per day in main subjects and 25 answer books per day in other subjects (Details are given in Spot Guidelines).
13	<p>Ensure that you do not make the following common types of errors committed by the Examiner in the past:- Giving more marks for an answer than assigned to it.</p> <ul style="list-style-type: none"> • Wrong totaling of marks awarded on an answer. • Wrong transfer of marks from the inside pages of the answer book to the title page. • Wrong question wise totaling on the title page. • Leaving answer or part thereof unassessed in an answer book. • Wrong totaling of marks of the two columns on the title page. • Wrong grand total. • Marks in words and figures not tallying/not same. • Wrong transfer of marks from the answer book to online award list. • Answers marked as correct, but marks not awarded. (Ensure that the right tick mark is correctly and clearly indicated. It should merely be a line. Same is with the X for incorrect answer.) • Half or a part of answer marked correct and the rest as wrong, but no marks awarded.
14	While evaluating the answer books if the answer is found to be totally incorrect, it should be marked as cross (X) and awarded zero (0) Marks.
15	Any un assessed portion, non-carrying over of marks to the title page, or totaling error detected by the candidate shall damage the prestige of all the personnel engaged in the evaluation work as also of the Board. Hence, in order to uphold the prestige of all concerned, it is again reiterated that the instructions be followed meticulously and judiciously.
16	The Examiners should acquaint themselves with the guidelines given in the “ Guidelines for spot Evaluation ” before starting the actual evaluation.
17	Every Examiner shall also ensure that all the answers are evaluated, marks carried over to the title page, correctly totaled and written in figures and words.
18	The candidates are entitled to obtain photocopy of the Answer Book on request on payment of the prescribed processing fee. All Examiners/Additional Head Examiners/Head Examiners are once again reminded that they must ensure that evaluation is carried out strictly as per value points for each answer as given in the Marking Scheme.

Maximum Marks: 80

XII 030 58/2/1 Economics 2026 # Page-3

4.	<p>Read the following statements carefully:</p> <p>Statement 1: Under the flexible exchange rate system, a deficit / surplus in the Balance of Payments is automatically corrected.</p> <p>Statement 2: Under the flexible exchange rate system, there is always a possibility of over/under valuation of currency.</p> <p>In the light of the above given statements, choose the correct option from the following:</p> <p>(A) Statement 1 is true and Statement 2 is false. (B) Statement 1 is false and Statement 2 is true. (C) Both Statements 1 and 2 are true. (D) Both Statements 1 and 2 are false.</p> <p>Ans. (A) Statement 1 is true and Statement 2 is false.</p>	1
5.	<p>Read the following Flow chart carefully and choose the correct option:</p> <div style="text-align: center;"> <pre> graph TD A[Goods] --> B[Final Goods] A --> C[Intermediate Goods] B --> D[Consumption Goods] B --> E[-----] </pre> </div> <p>Options:</p> <p>(A) Transfer goods (B) Capital goods (C) Non-durable goods (D) Semi-durable goods</p> <p>Ans. (B) Capital Goods</p>	1
6.	<p>The Aggregate Demand (AD) curve lies parallel to consumption curve, indicating that both have _____. (Choose the correct option to fill in the blank)</p> <p>(A) same components (B) different slope (C) same slope (D) inverse relationship</p> <p>Ans. (C) same slope</p>	1
7.	<p>Read the following statements carefully:</p> <p>Statement 1: Brokerage earned by a dealer of second hand cars is included in the estimation of National Income.</p> <p>Statement 2: Imputed value of production for self-consumption is included in National Income.</p> <p>In the light of the above given statements, choose the correct option from the following:</p> <p>(A) Statement 1 is true and Statement 2 is false. (B) Statement 1 is false and Statement 2 is true. (C) Both Statements 1 and 2 are true. (D) Both Statements 1 and 2 are false.</p> <p>Ans. (C) Both Statements 1 and 2 are true.</p>	1
8.	<p>Sumit deposited ₹ 10 lakh in his savings account. The deposits made by him is a part of _____ in the M₁ measure of money supply. (Choose the correct option to fill in the blank)</p> <p>Options:</p> <p>(A) Currency held by public</p>	

	<p>(B) Interbank deposits (C) Demand deposits with commercial banks (D) Term deposits with Reserve Bank of India (RBI)</p> <p>Ans. (C) Demand deposits with commercial banks</p>	1																								
9.	<p>Read the following statements – Assertion (A) and Reason (R). Choose the correct option from those given below:</p> <p>Assertion (A): Increase in exchange rate implies that the price of foreign currency in terms of domestic currency has increased.</p> <p>Reason (R): Balance of trade records the inflows and outflows of foreign exchange.</p> <p>Options: (A) Both Assertion (A) and Reason (R) are true and Reason (R) is the correct explanation of Assertion (A). (B) Both Assertion (A) and Reason (R) are true, but Reason (R) is not the correct explanation of Assertion (A). (C) Assertion (A) is true, but Reason (R) is false. (D) Assertion (A) is false, but Reason (R) is true.</p> <p>Ans. (C) Assertion (A) is true, but Reason (R) is false.</p>	1																								
10.	<p>Identify, which one of the following is not a function of Reserve Bank of India as a bank, agent and advisor to the government.</p> <p>Options: (A) Carries out banking business of the government. (B) Manages national debt. (C) Advises on financial matters. (D) Conducts periodic inspections.</p> <p>Ans. (D) Conducts periodic inspections.</p>	1																								
11.	<p>Calculate compensation of employees from the data given below:</p> <table border="1"> <thead> <tr> <th>S. No.</th><th>Particulars</th><th>Amount (in ₹ crore)</th></tr> </thead> <tbody> <tr> <td>(i)</td><td>Interest</td><td>45</td></tr> <tr> <td>(ii)</td><td>Profits after tax</td><td>20</td></tr> <tr> <td>(iii)</td><td>Consumption of fixed capital</td><td>50</td></tr> <tr> <td>(iv)</td><td>Gross Domestic Product at market price (GDP_{MP})</td><td>200</td></tr> <tr> <td>(v)</td><td>Rent</td><td>25</td></tr> <tr> <td>(vi)</td><td>Corporate Tax</td><td>5</td></tr> <tr> <td>(vii)</td><td>Goods and Services tax</td><td>10</td></tr> </tbody> </table> <p>Ans. Net Domestic Product at Factor Cost (NDP_{FC}) = (iv) - (iii) - (vii) $= 200 - 50 - 10$ $= ₹ 140 \text{ crore}$</p> <p>NDP_{FC} = Compensation of Employees + (v) + (i) + (vi) + (ii) Compensation of Employees = 140 – 25 – 45 – 5 – 20 $= ₹ 45 \text{ crore}$</p>	S. No.	Particulars	Amount (in ₹ crore)	(i)	Interest	45	(ii)	Profits after tax	20	(iii)	Consumption of fixed capital	50	(iv)	Gross Domestic Product at market price (GDP _{MP})	200	(v)	Rent	25	(vi)	Corporate Tax	5	(vii)	Goods and Services tax	10	<p>$\frac{1}{2}$</p> <p>$\frac{1}{2}$</p> <p>1</p> <p>$\frac{1}{2}$</p> <p>$\frac{1}{2}$</p> <p>3</p>

(i)	Interest	45																								
(ii)	Profits after tax	20																								
(iii)	Consumption of fixed capital	50																								
(iv)	Gross Domestic Product at market price (GDP _{MP})	200																								
(v)	Rent	25																								
(vi)	Corporate Tax	5																								
(vii)	Goods and Services tax	10																								
12. (A)	<p>“When initial deposits in the credit creation process remains same, the total amount of credit created rises as the value of money multiplier increases.”</p> <p>Defend or refute the above statement with the help of hypothetical numerical example.</p> <p>Ans. The given statement is defended.</p>																									

	<table><tr><th>Case</th><th>Initial Deposits</th><th>Money Multiplier ($\frac{1}{RR}$)</th><th>Credit Created (Initial Deposit x Money Multiplier)</th></tr><tr><td>I</td><td>1,000</td><td>4</td><td>1,000 x 4 = ₹ 4,000</td></tr><tr><td>II</td><td>1,000</td><td>5</td><td>1,000 x 5 = ₹ 5,000</td></tr></table> <p>The above example depicts that there exists a direct relationship between money multiplier and the total amount of credit created by the commercial banks.</p> <p>(Any other valid alternative solution to be awarded marks)</p> <p style="text-align: center;">OR</p>	Case	Initial Deposits	Money Multiplier ($\frac{1}{RR}$)	Credit Created (Initial Deposit x Money Multiplier)	I	1,000	4	1,000 x 4 = ₹ 4,000	II	1,000	5	1,000 x 5 = ₹ 5,000	1 ½ 1 ½
Case	Initial Deposits	Money Multiplier ($\frac{1}{RR}$)	Credit Created (Initial Deposit x Money Multiplier)											
I	1,000	4	1,000 x 4 = ₹ 4,000											
II	1,000	5	1,000 x 5 = ₹ 5,000											
(B)	<p>“The Central Bank maintains reserves of all commercial banks and use to settle interbank claims.”</p> <p>Do you agree with the given statement? Give valid explanation in support of your answer.</p> <p>Ans. Yes. The Central Bank acts as the banker to banks and performs the clearing house function. Since, it maintains the cash reserves of all commercial banks it becomes convenient for the Central Bank to settle their mutual claims. The Central Bank adjusts these obligations by making entries without any physical transfer of cash. This process ensures smooth, quick and efficient settlement of such interbank transactions.</p> <p style="text-align: right;">(To be marked as a whole)</p>	3 3												
13.	Read the following text carefully:													
(A)	<p>“A country’s total National Income (NI) at the end of the year is ₹ 80,000 crore. During the same year, the Gross Domestic Product (GDP) increased by ₹ 10,000 crore. The depreciation on capital goods was ₹ 2,000 crore and National savings at the end of year is ₹ 15,000 crore. Additionally, country invested ₹ 8,000 crore in new capital goods industries.”</p> <p>In the light of above text, categorise the items as ‘stock’ or ‘flow’ variables with valid arguments.</p> <p>Ans. Stock Variable: National Savings</p> <p>Flow Variables:</p> <ul style="list-style-type: none">• National Income• Gross Domestic Product• Depreciation on capital goods• Investment on new capital goods <p>Stock variables are those variables which are measured at a particular point of time whereas; flow variables are those variables which are measured over a period of time.</p> <p style="text-align: center;">OR</p>	½ ½ ½ ½ ½ 1 ½												
(B)	<p>The value of Nominal Gross National Product (GNP) of an economy was ₹ 2,500 crore in a particular year. The value of Gross National Product (GNP) of that country during the same year, estimated at the prices of base year was ₹ 3,000 crore.</p> <p>(i) Estimate the value of Gross National Product (GNP) deflator (in percentage).</p> <p>Ans. Given, Nominal Gross National Product (GNP) = ₹ 2,500 crore</p> <p>Gross National Product estimated at the prices of base year = ₹ 3,000 crore</p> <p>Gross National Product (GNP) deflator (in percentage) = $\frac{\text{Nominal GNP}}{\text{Real GNP}} \times 100$</p> <p style="text-align: right;">= $\frac{2,500}{3,000} \times 100$</p> <p style="text-align: right;">= 83.33</p>	4 1 ½ ½												

	<p>(ii) "The price level has risen between the base year and the year under consideration." Defend or refute the statement with suitable argument.</p> <p>Ans. The given statement is refuted. As the value of Gross National Product (GNP) deflator of 83.33 indicates that the price level in the year under consideration has reduced by 16.67% (100 - 83.33) compared to base year.</p>	2
		4
14.	<p>(a) Explain the likely impacts of the 'Make in India' policy initiated by Government of India on the Balance of Payments (BoP) of India (assuming all other factors constant).</p> <p>Ans. Assuming all other factors are constant, the 'Make in India' policy is likely to improve the situation of Balance of Payments (BoP) of India as it may increase the domestic production and promote net exports. This may lead to greater inflow of foreign exchange, which is recorded on the credit side of the current account, thereby improving the overall BoP position.</p> <p>(b) State the meaning of Balance of Payment (BoP) surplus and deficit.</p> <p>Ans. Balance of Payments (BoP) Surplus refers to a situation under which, inflows of foreign exchange exceed outflows of foreign exchange on account of autonomous transactions, over a period of time.</p> <p>Balance of Payments (BoP) Deficit refers to a situation under which, inflows of foreign exchange fall short of outflows of foreign exchange on account of autonomous transactions, over a period of time.</p>	2

15.	<p>Read the following text carefully: "The Reserve Bank of India (RBI) announced a 50 basis point Repo Rate cut to 5.50% from 6%." In the light of the given text and common understanding, answer the following questions:</p> <p>(i) Identify the economic issue indicated in the above text.</p> <p>Ans. The economic issue indicated in the above text may be prevailing deflation in the economy.</p> <p>(ii) Explain the likely causes and consequences of this step of RBI on the economy.</p> <p>Ans. The Reserve Bank of India (RBI) announced a 50 basis point Repo Rate cut to 5.50% from 6% with an objective to curb deflationary situation by increasing Aggregate Demand.</p> <p>A cut in Repo Rate may encourage the commercial banks to decrease their lending rates. Consequently, making credit more affordable for the general public. This may stimulate borrowings, leading to an increase in Aggregate Demand in the economy.</p>	1
		1
		2
		4
16. (A)	<p>(I) Estimate the value of subsistence level of consumption expenditure from the following data about an economy which is in equilibrium:</p> <p>(i) National Income (Y) = ₹ 1,200 crore</p> <p>(ii) Marginal Propensity to Save (MPS) = 0.20</p> <p>(iii) Investment Expenditure (\bar{I}) = ₹ 100 crore</p> <p>Ans. Given, National Income (Y) = ₹ 1,200 crore</p> <p>Marginal Propensity to Save (MPS) = 0.20</p> <p>Investment Expenditure (\bar{I}) = ₹ 100 crore</p> <p>Marginal Propensity to Consume (MPC) = $1 - \text{MPS}$ $= 1 - 0.2$ $= 0.8$</p>	

(B)	As we know, at equilibrium level of income, $Y = C + I$ $Y = \bar{c} + (MPC)Y + \bar{I}$ $1,200 = \bar{c} + (0.8 \times 1,200) + 100$ $\bar{c} = ₹ 140 \text{ crore}$ (Any other valid alternate solution to be awarded marks)	1 ½ 1 ½																				
	(II) “An economy facing an increase in unintended accumulation of inventories would try to reduce Aggregate Demand.” Defend or refute the above statement with valid arguments. Ans. The given statement is refuted. An unintended accumulation of inventories reflects that the households and firms are planning to consume less than what the firms are planning to produce. Thus, the producers may reduce the output to clear the undesired stock of inventories. (To be marked as a whole) (Any other valid argument/explanation to be awarded marks)	3																				
	OR	6																				
	(I) Complete the following table:																					
	<table><tr><th>Situation</th><th>Change in Investment (ΔI)</th><th>Change in Income (ΔY)</th><th>Marginal Propensity to Consume (MPC)</th><th>Investments Multiplier (K)</th></tr><tr><td>(a)</td><td>200</td><td>(i)</td><td>0.8</td><td>(ii)</td></tr><tr><td>(b)</td><td>(iii)</td><td>2000</td><td>(iv)</td><td>4</td></tr><tr><td>(c)</td><td>1000</td><td>(v)</td><td>0.5</td><td>(vi)</td></tr></table>	Situation	Change in Investment (ΔI)	Change in Income (ΔY)	Marginal Propensity to Consume (MPC)	Investments Multiplier (K)	(a)	200	(i)	0.8	(ii)	(b)	(iii)	2000	(iv)	4	(c)	1000	(v)	0.5	(vi)

(II) Identify the monetary measures being referred to in the following statements. Discuss whether the tool would be used during a situation of excess demand or deficient demand. (i) Selling off government securities (G-Sec) to public by the central bank. Ans. The monetary measure being referred to in the aforesaid statement is ‘Open Market Operations.’ The Central Bank sells the government securities in the open market to reduce the money supply in the economy and correct the situation of excess demand. (ii) Encourage commercial banks to park their surplus funds with the Reserve Bank of India (RBI). Ans. The monetary measure being indicated in the above statement is Reverse Repo Rate. To deal with the situation of excess demand the Reserve Bank of India (RBI) may increase the Reverse Repo Rate thereby reducing the lending capacity of the commercial banks, reducing the money supply and Aggregate Demand in the economy.	½ 1 ½ 1																					
	6																					
17.	Read the following text carefully: The government has allocated ₹ 15.27 lakh crore for major sectors, ranging from defence to rural development to social welfare to commerce and so on. Government expenditure goes to paying states’ share of taxes and duties. Around 19% is spent on																					

	<p>interest payments and 16% on central sector schemes, with subsidies, pension and other payments contributing 19%. Government revenue is divided between borrowings and other liabilities, which account for massive 27% of the incoming cash, Income tax revenue of around 19% Goods and Services Taxes (GST) and other taxes of around 18%; Corporation taxes account for around 17%.</p> <p>The next highest provision on this list is ₹ 2.66 lakh crore for rural development. This will include expenditure on rural infrastructure project and increased outlay for the popular MGNREGA scheme.</p> <p>On the basis of given text and common understanding, answer the following questions:</p> <p>(i) Identify the major sources of government revenue and state what percentage does each one of them contribute.</p> <p>Ans. The major sources of government revenue as indicated in the text are borrowings and other liabilities, which account for a massive 27% of the incoming cash, Income tax revenue of around 19%, Goods and Services Taxes (GST) and other taxes of around 18% and Corporation taxes account for around 17%. (To be marked as a whole)</p> <p>(ii) Discuss the need to allocate funds among different sectors of the economy.</p> <p>Ans. The government has allocated ₹15.27 lakh crore across key sectors such as defence, rural development etc. This substantial allocation aims to strengthen national security, promote rural growth, enhance social welfare and boost economic activities. It reflects the government's focus on balanced and comprehensive development with infrastructural upgradation, employment generation and overall economic growth in the country. (To be marked as a whole) (Any other valid explanation to be awarded marks)</p>	<p>3</p> <p>3</p>

(iv)	Direct employment by government	(d)	Indian Oil Corporation (IOC)																			
23.	Growth of rural economy depends primarily on infusion of _____ to realise higher productivity in agricultural and non-agricultural sectors. (Choose the correct option to fill in the blank) (A) Capital (B) Road Construction (C) Green status (D) Outsourcing Ans. (A) Capital	1																				
24.	Identify that strategy given in the image that can be utilised for sustainable development. <div></div> Options: (A) Non-conventional source of energy (B) Wind power																					

	<p>(C) CNG in urban areas (D) Gobar Gas in rural areas</p> <p>Ans. (D) Gobar Gas in rural areas</p> <p>Note: The following question is for the Visually Impaired Candidates only in lieu of Q. No. 24.</p> <p>If a nation fails to enforce the regulations of the Montreal Protocol, the likely long term environmental and biological consequence of this will be _____. (Choose the correct alternative)</p> <p>(i) Rapid deforestation (ii) Increased possibility of skin cancer (iii) Greenhouse effect causing rise in global temperature (iv) Possibility of acid rain</p> <p>Options: (A) Only (i) (B) (ii), (iii) and (iv) (C) (i) and (iv) (D) (i) and (iii)</p> <p>Ans. (B) (ii), (iii) and (iv)</p>	1
25.	<p>Read the following statements carefully: Statement 1: The option for producing off-season crops are quite restricted in organic farming. Statement 2: Organic agriculture helps in substituting costlier agricultural inputs with locally produced organic inputs. In the light of the above statements, choose the correct option from the following: (A) Statement 1 is true and Statement 2 is false. (B) Statement 1 is false and Statement 2 is true. (C) Both statements 1 and 2 are true. (D) Both statements 1 and 2 are false.</p> <p>Ans. (C) Both statements 1 and 2 are true.</p>	1
26.	<p>China adopted _____ strategy in which farmers and industries bought and sold certain quantities at government fixed prices, while remaining transactions occurred at market prices. (Choose the correct option to fill in the blank)</p> <p>Options: (A) Dual Pricing (B) Special Economic Zones (C) Great Proletarian Cultural Revolution (D) Great Leap Forward</p> <p>Ans. (A) Dual Pricing</p>	1
27.	<p>Education provides _____. (Choose the correct option to fill in the blank)</p> <p>(i) Scientific advancements (ii) Facilitate inventions and innovations (iii) Adapting to new technology</p> <p>Options: (A) (i) and (ii) (B) (i) and (iii) (C) (ii) and (iii) (D) (i), (ii) and (iii)</p> <p>Ans. (D) (i), (ii) and (iii)</p>	1
28.	<p>“In the late 1970s and 1980s, Pakistan experienced significant changes in its policies, incentives and new investments.” Do you agree with the above statement? Justify your answer with valid arguments. Ans. Yes. In the late 1970s and 1980s, there was a shift in policy orientation in Pakistan emphasising on denationalisation and promotion of the private sector.</p>	3

	<p>Pakistan also received financial assistance from Western countries and remittances from emigrants to the Middle East, which stimulated economic growth. The government also offered incentives to the private sector, creating a conducive environment for new investments. (To be marked as a whole)</p>	
<p>29.</p> <p>(A)</p>	<p>Distinguish between formal and informal sector of employment with the help of suitable examples.</p> <p>Ans. Formal Sector includes all the public sector establishments and those private sector establishments which employ 10 or more hired workers. Formal sector workers get regular income and are entitled to social security benefits.</p> <p>For example: a government hospital etc.</p> <p style="text-align: center;">Whereas;</p> <p>Informal Sector includes those private sector establishments which employ less than 10 hired workers. Workers in informal sector often lack job security, regular income and can be dismissed without any compensation.</p> <p>For example: agricultural labourer etc.</p> <p style="text-align: center;">(Any other valid example to be awarded marks)</p> <p style="text-align: center;">OR</p>	<p>1</p> <p>$\frac{1}{2}$</p> <p>1</p> <p>$\frac{1}{2}$</p>
(B)	<p>Discuss the long term implications of increased demand for environmental resources exceeding their natural regenerative capacity.</p> <p>Ans. Owing to the rapid population growth and industrialisation, the demand of resources for production and consumption exceeded their natural rate of regeneration, placing heavy pressure on the absorptive capacity of the environment. As a result, issues like waste generation and pollution have intensified, leading to a serious environmental crisis. (To be marked as a whole)</p>	3
30.	<p>(A)</p> <p>“The Restrictive policies under the colonial government adversely affected the structure, composition and volume of India’s foreign trade.”</p> <p>Justify the above statement with valid explanation.</p> <p>Ans. The restrictive policies under the colonial rule, adversely affected India’s foreign trade. India was made an exporter of primary products like cotton, jute, silk, and sugar, and an importer of finished goods and machinery from Britain. Furthermore, Britishers exercised monopoly control, over half of India’s foreign trade directed towards them, while limited trade was allowed with other countries like China, Ceylon and Persia. The opening of the Suez Canal further strengthened British control, worsening the structure, composition and volume of India’s foreign trade. (To be marked as a whole)</p> <p style="text-align: center;">OR</p>	4
(B)	<p>Explain the main objectives and impacts of land settlement policies implemented under the British government rule.</p> <p>Ans. The main objectives of land settlement policies under the British rule were to create a systematic and efficient mechanism for tax collection and to maximise revenue. This revenue was targeted to meet administrative expenses and financing the military needs of the colonial government.</p> <p>The implementation of these policies worsened the condition of Indian farmers, leading to their exploitation and distress. As a result, agricultural productivity remained low and the sector faced stagnation, resulting in widespread poverty and social unrest. (Any other valid point to be awarded marks)</p>	2

	<div><p style="text-align: center;">Distribution of Employment by Gender</p><div><div><p>Male Workers</p><table><tr><td>Self-employed</td><td>51%</td></tr><tr><td>Casual Wage Labourers</td><td>29%</td></tr><tr><td>Regular Salaried Employees</td><td>20%</td></tr></table></div><div><p>Female Workers</p><table><tr><td>Self-employed</td><td>56%</td></tr><tr><td>Casual Wage Labourers</td><td>31%</td></tr><tr><td>Regular Salaried Employees</td><td>13%</td></tr></table></div></div><div><div> Self-employed</div><div> Regular Salaried Employees</div><div> Casual Wage Labourers</div></div></div> <div><p>Compare and analyse the distribution of work force with respect to gender.</p><p>Ans. The data shows that self-employment is the major source of livelihood for both men and women, accounting for over 50% of the workforce for both male (51%) and female (56%) workers. Casual wage labour emerges as the second largest category, with 29% of men and 31% of women engaged in it. Regular salaried employment is more prevalent among men (20%) compared to women (13%).</p><p style="text-align: right;">(To be marked as a whole)</p><p>Note : The following question is for the Visually Impaired Candidates only in lieu of Q. No. 31(a).</p><p>“Compared to 1970’s, there has hardly been any change in the distribution of workforce across various industries.”</p><p>Defend or refute the above statement with valid explanation.</p><p>Ans. The given statement is refuted. There has been a significant change in the distribution of workforce across industries in India since the 1970s. Earlier, a large proportion of the workforce was engaged in the primary sector, especially agriculture. Over time, there has been a noticeable shift towards the secondary and service sectors. This indicates structural transformation in the economy, with non-farm sectors emerging as important sources of employment and offering better growth opportunities for the workforce.</p><p style="text-align: right;">(To be marked as a whole)</p><p>(b) State the meaning of worker-population ratio.</p><p>Ans. Worker Population Ratio (WPR) is defined as the total number of workers in a country divided by population. It is represented in percentage.</p></div> <div><div>3</div><div>3</div><div>1</div><div>4</div></div>	Self-employed	51%	Casual Wage Labourers	29%	Regular Salaried Employees	20%	Self-employed	56%	Casual Wage Labourers	31%	Regular Salaried Employees	13%
Self-employed	51%												
Casual Wage Labourers	29%												
Regular Salaried Employees	20%												
Self-employed	56%												
Casual Wage Labourers	31%												
Regular Salaried Employees	13%												
32.	<div><p>(i) State the meaning of ‘Commune system’.</p><p>Ans. The Commune system refers to a system in which people collectively cultivate agricultural land.</p><p>(ii) Explain any two reasons for the slow economic growth in Pakistan.</p><p>Ans. Pakistan experienced slow economic growth owing to:</p><ul style="list-style-type: none">its agricultural growth and food supply situation were based not on an institutionalised process of technical change but on good harvest.the problems of overdependence on remittances, rising foreign loans and increased difficulty in paying back the loans.<p style="text-align: right;">(Any other valid reason to be awarded marks)</p></div> <div><div>1</div><div>1 ½</div><div>1 ½</div><div>4</div></div>												
33. (A)	<div><p>Read the following text carefully and answer the questions given below:</p><p>“In India, high-yielding seed varieties were initially brought to the State of Punjab, Haryana and portions of western Uttar Pradesh.”</p><p>(i) Identify the approach initiated by Indian Government in 1966.</p><p>Ans. Green Revolution was the approach initiated by Government of India.</p></div> <div><div>1</div></div>												

	(ii) State the primary goal of this approach. Ans. Primary goal of Green Revolution was to achieve self – sufficiency in food grains. (Any other valid goal to be awarded marks)	1
	(iii) Describe any two impacts of this approach. Ans. Two impacts of Green Revolution are:	
	<ul style="list-style-type: none"> • The green revolution enabled the government to procure sufficient amount of food grains to create buffer stock, to be used in times of food shortage. 	2
	<ul style="list-style-type: none"> • The relative price of food grains declined in comparison to other items of consumption. This fall in price particularly benefited lower income groups, as they spend a large share of their income on food items. 	2
	(Any other valid impact to be awarded marks)	
	OR	6
(B)	Read the following text carefully and answer the questions given below: “It is an arrangement in which a firm hires some specialized firm(s) to carry out some of its activities (which were earlier being performed by itself). These service hirings could be from local / international markets.”	
	(i) Identify the indicated outcome of the globalisation process. Ans. The indicated outcome of the globalisation process is Outsourcing.	1
	(ii) State any two factors responsible for making India as an important source of these activities.	
	Ans. India has emerged as a favourite outsourcing destination because of the:	
	<ul style="list-style-type: none"> • growth of faster modes of communication, particularly the growth of Information Technology (IT). 	1
	<ul style="list-style-type: none"> • availability of skilled and qualified manpower at relatively affordable costs. 	1
	(Any other valid factor to be awarded marks)	
	(iii) Explain examples of services that have expanded due to advancements in information technology.	
	Ans. With rapid advancements in information technology, India has emerged as a major outsourcing hub for a wide range of services. These include voice-based business processes, data and record management, accounting, banking services, film editing, book transcription, clinical consultation and even online teaching.	3

34.	<p>Read the following text carefully:</p> <p>The Union Budget 2025-26 proposed a significant package for rural India allocating ₹ 1.88 lakh crore to drive comprehensive development. The budget emphasises on boosting employment, women employment, education and infrastructure in rural areas, reflecting the governments’ commitment for a stronger, self-reliant rural economy. The extension of Jal-Jeevan Mission until 2028, with focus on achieving 100% rural water supply coverage and enhancing infrastructure maintenance.</p> <p>Broadband connectivity is set to expand under the Bharatnet project, providing internet access to all rural government secondary schools and primary health care centres.</p>	

	<p>Also, the budget highlights major rural schemes like the Pradhan Mantri Gram Sadak Yojana which has provided all-weather roads to rural areas. The Pradhan Mantri Grameen Awaas Yojana, which has delivered housing to economically weaker sections. The Mahatma Gandhi National Rural Employment Guarantee Scheme (MGNREGS) continues to secure rural livelihoods with an allocation of ₹ 86,000 crore in FY 2024-25.</p> <p>On the basis of the above text and common understanding, answer the following questions:</p> <p>(i) Explain the significance of rural development. Ans. Rural development aims at generating employment, empowerment of women, improving education and strengthening infrastructure to achieve comprehensive development and a stronger, self-reliant rural economy.</p> <p>(ii) Discuss any two policies initiated by government of India for rural development. Ans. Two policies initiated by government of India for rural development as indicated in the above text are:</p> <ul style="list-style-type: none"> • The Pradhan Mantri Grameen Awaas Yojana, which has delivered housing to economically weaker sections. • The Mahatma Gandhi National Rural Employment Guarantee Scheme (MGNREGS) continues to secure rural livelihoods with an allocation of ₹ 86,000 crore in FY 2024-25. <p style="text-align: right;">(Any other valid policy to be awarded marks)</p>	<p style="text-align: center;">2</p> <p style="text-align: center;">2</p> <p style="text-align: center;">2</p> <p style="text-align: center;">6</p>
