

<p style="text-align: center;"><b>Marking Scheme</b>  <b>Strictly Confidential</b>  <b>(For Internal and Restricted use only)</b>  <b>Senior Secondary School Examination, 2026 (XIIth)</b>  <b>SUBJECT NAME: ACCOUNTANCY (Q.P. CODE 055/67-1-1)</b></p>	
<b><u>General Instructions:</u></b>	
<b>1</b>	The CBSE has decided to introduce On Screen Marking (OSM) for the evaluation of Class XII answer Book with the 2026 Examination.
<b>2</b>	You are aware that evaluation is the most important process in the actual and correct assessment of the candidates. A small mistake in evaluation may lead to serious problems which may affect the future of the candidates, education system and teaching profession. To avoid mistakes, it is requested that before starting evaluation, you must read and understand the spot evaluation guidelines carefully.
<b>3</b>	<b>“Evaluation policy is a confidential policy as it is related to the confidentiality of the examinations conducted, evaluation done and several other aspects. Its leakage to public in any manner could lead to derailment of the examination system and affect the life and future of millions of candidates. Sharing this policy/document to anyone, publishing in any magazine and printing in Newspaper/Website, etc. may invite action under various rules of the Board and IPC.”</b>
<b>4</b>	Evaluation is to be done as per instructions provided in the Marking Scheme. It should not be done according to one’s own interpretation or any other consideration. Marking Scheme should be strictly adhered to and religiously followed. <b>However, while evaluating, answers which are based on latest information or knowledge and/or are innovative, they may be assessed for their correctness otherwise and due marks be awarded to them. In Class-XII, while evaluating two competency-based questions, please try to understand given answer and even if reply is not from marking scheme but correct competency is enumerated by the candidate, due marks should be awarded.</b>
<b>5</b>	The Marking scheme carries only suggested value points for the answers. These are in the nature of Guidelines only and do not constitute the complete answer. The students can have their own expression and if the expression is correct, the due marks should be awarded accordingly.
<b>6</b>	The Head-Examiner must go through the first five answer books evaluated by each evaluator on the first day, to ensure that evaluation has been carried out as per the instructions given in the Marking Scheme. If there is any variation, the same should be zero after deliberation and discussion. The remaining answer books meant for evaluation shall be given only after ensuring that there is no significant variation in the marking of individual evaluators.
<b>7</b>	Evaluators will mark ( √ ) wherever answer is correct. For wrong answer CROSS ‘X’ be marked. Evaluators will not put right (✓) while evaluating which gives an impression that answer is correct and no marks are awarded. <b>This is most common mistake which evaluators are committing.</b>
<b>8</b>	If a question has parts, please award marks on the right-hand side for each part in the OSM Portal. Marks

	awarded for different parts of the question will be totaled up by the OSM System.
9	If a question does not have any parts, marks must be awarded in the left-hand margin in the OSM Portal. This may also be followed strictly.
10	No marks to be deducted for the cumulative effect of an error. It should be penalized only once.
11	A full scale of 80 marks has to be used. Please do not hesitate to award full marks if the answer deserves it.
12	Every examiner has to necessarily do evaluation work for full working hours i.e., 8 hours every day and evaluate 20 answer books per day in main subjects and 25 answer books per day in other subjects (Details are given in Spot Guidelines). This is in view of the reduced syllabus and number of questions in question paper.
13	Ensure that you do not make the following common types of errors committed by the Examiner in the past: <ul style="list-style-type: none"> <li>Answers marked as correct, but marks not awarded. (Ensure that the right tick mark is correctly and clearly indicated. It should merely be a line. Same is with the X for incorrect answer.)</li> <li>Half or a part of answer marked correct and the rest as wrong, but no marks awarded.</li> </ul>
14	While evaluating the answer books if the answer is found to be totally incorrect, it should be marked as cross (X) and awarded zero (0) Marks.
15	The Examiners should acquaint themselves with the guidelines given in the “ <b>Guidelines for Spot Evaluation</b> ” before starting the actual evaluation.
16	The candidates are entitled to obtain photocopy of the Answer Book on request on payment of the prescribed processing fee. All Examiners/Additional Head Examiners/Head Examiners are once again reminded that they must ensure that evaluation is carried out strictly as per value points for each answer as given in the Marking Scheme.
17	In <b>Part A</b> , for questions having two options/alternatives, where only one option/ alternative is required to be attempted: <ul style="list-style-type: none"> <li>If the candidate has attempted both the options/ alternatives, the Evaluator shall award marks in both the options/ alternatives. The system will take the higher of two scores and disregard the other response.</li> <li>If a candidate has attempted only one option/ alternative, then the evaluator shall mark “NA” (Not attempted) against the option/ alternative that has not been attempted by the candidate.</li> </ul>
18	In <b>Part B</b> , for questions having two options/alternatives, where only one option/ alternative is required to be attempted, if the candidate has attempted both the options/ alternatives, the Evaluator shall award marks in the option/ alternative where the candidate has scored higher marks and disregard the other response. The system will NOT take the higher of two scores.
19	In <b>Part B</b> Step marking, Questions of Option I (Analysis of Financial Statements) are numbered as: B_I_27, B_I_28....B_I_34 and Questions of Option II (Computerised Accounting) are numbered as: B_II_27, B_II_28....B_II_34
20	In <b>Part B</b> , if a candidate has attempted both Option I (Analysis of Financial Statements) and Option II (Computerised Accounting), where only one option is required to be attempted, the evaluator shall award marks in both options (I and II). The system will take the higher of the two scores (Option I or Option II) and disregard the other response.

67 /1 /1	<b>MARKING SCHEME</b> <b>ACCOUNTANCY (055)</b> <b>EXPECTED ANSWERS / VALUE POINTS</b>	
	<b>SECTION A</b>	
1	<b>Q. The books of Mehul and Barkha....</b> <b>Ans. (D) 10%</b>	<b>1 mark</b>
2	<b>Q. There are two statements Assertion (A)....</b> <b>Ans. (A)</b> Both Assertion (A) and Reason (R) are correct and Reason (R) is the correct explanation of Assertion (A).	<b>1 mark</b>
3	<b>Q. (a) If 600 shares of ₹10 each, issued at a premium...</b> <b>Ans. (A)</b> credited, ₹3,000  <b>OR</b> <b>Q. (b) T.D. Ltd. issued ₹10,00,000, 9% debentures...</b> <b>Ans. (B)</b> ₹2,00,000	<b>1 mark</b>  <b>OR</b>  <b>1 mark</b>
4	<b>Q. (a) Tarun and Tej were partners....</b> <b>Ans. (B)</b> ₹3,72,000  <b>OR</b> <b>Q. (b) Ashok and Vasu were partners....</b> <b>Ans. (C)</b> ₹2,05,000	<b>1 mark</b>  <b>OR</b>  <b>1 mark</b>
5	<b>Q. Soni and Kush were partners in a firm...</b> <b>Ans. (C)</b> ₹5,00,000	<b>1 mark</b>
6	<b>Q. (a) Which of the following is not correct...</b> <b>Ans. (A)</b> It is a primary security.  <b>OR</b> <b>Q. (b) 'A company is formed according....</b> <b>Ans. (C)</b> Body Corporate	<b>1 mark</b>  <b>OR</b>  <b>1 mark</b>

7	<p><b>Q. (a) Chandan, Ravi and Mahesh....</b></p> <p>Ans. (B) Old profit sharing ratio</p> <p style="text-align: center;"><b>OR</b></p> <p><b>(b) Suman and Tanya were partners.....</b></p> <p>Ans. (D) ₹5,00,000</p>	<p><b>1 mark</b></p> <p><b>OR</b></p> <p><b>1 mark</b></p>
8	<p><b>Q. Tula, Ram and Madhvi were partners ....</b></p> <p>Ans.(C) ₹2,400</p>	<p><b>1 mark</b></p>
9	<p><b>Q. (a) Dharam, Karam and Raman were partners in a firm...</b></p> <p>Ans. (C) 4:1</p> <p style="text-align: center;"><b>OR</b></p> <p><b>Q. (b) Deen, Raju and Hari were partners in a firm....</b></p> <p>Ans. (A) 1:1</p>	<p><b>1 mark</b></p> <p><b>OR</b></p> <p><b>1 mark</b></p>
10	<p><b>Q. Nidhi and Kunal were partners...</b></p> <p>Ans. (C) Nidhi ₹9,000; Kunal ₹6,000</p>	<p><b>1 mark</b></p>
11	<p><b>Q. On 1<sup>st</sup> April, 2024, Dina Ltd. issued.....</b></p> <p>Ans. (B) ₹72,000</p>	<p><b>1 mark</b></p>
12	<p><b>Q. Sakshi Ltd. forfeited.....</b></p> <p>Ans. (C) ₹8 per share</p>	<p><b>1 mark</b></p>
13	<p><b>Q. Surya Ltd. issued 50,000 equity shares.....</b></p> <p>Ans. (C) ₹2,45,000</p>	<p><b>1 mark</b></p>
14	<p><b>Q. Sidhi, Gyan and Gayatri were partners....</b></p> <p>Ans. (C) ₹10,000 will be credited to realisation account.</p>	<p><b>1 mark</b></p>
15	<p><b>Q. Chaman and Vatika were partners in a firm...</b></p> <p>Ans. (B) 31:41:18</p>	<p><b>1 mark</b></p>
16	<p><b>Q. Lalita, Shivani and Madhuri were partners in a firm...</b></p> <p>Ans. (D) ₹2,70,000</p>	<p><b>1 mark</b></p>

17 Q. Average profit of a firm during the last few years....

Ans.

(i) According to Capitalisation of Super profits method:

$$\text{Goodwill} = \frac{\text{Super profits} \times 100}{\text{Normal Rate of return}} \dots\dots\dots \boxed{\frac{1}{2}}$$

$$\text{Super profit} = \text{Average profit} - \text{Normal profit}$$

$$\text{Normal profit} = \text{Normal Rate of return} / 100 \times \text{Capital Employed.}$$

$$\begin{aligned} \text{Capital Employed} &= \text{Assets} - \text{External Liabilities} \\ &= ₹60,00,000 - ₹20,00,000 \\ &= ₹40,00,000 \end{aligned}$$

$$\begin{aligned} \text{Normal profit} &= \text{Normal Rate of return} / 100 \times \text{Capital Employed} \\ &= 10 / 100 \times ₹40,00,000 \\ &= ₹4,00,000 \dots\dots\dots \boxed{\frac{1}{2}} \end{aligned}$$

$$\text{Average profit} = ₹8,00,000$$

$$\begin{aligned} \text{Super profit} &= \text{Average profit} - \text{Normal profit} \\ &= ₹8,00,000 - ₹4,00,000 \\ &= ₹4,00,000 \dots\dots\dots \boxed{\frac{1}{2}} \end{aligned}$$

$$\begin{aligned} \text{Goodwill} &= \frac{₹4,00,000 \times 100}{10} \\ &= ₹40,00,000 \dots\dots\dots \boxed{\frac{1}{2}} \end{aligned}$$

(ii) According to Super profit method:

$$\text{Goodwill} = \text{Super profits} \times \text{Number of years purchase} \dots\dots\dots \boxed{\frac{1}{2}}$$

$$\text{Super profit} = \text{Average profit} - \text{Normal profit}$$

$$\text{Normal profit} = \text{Normal Rate of return} / 100 \times \text{Capital Employed.}$$

$$\begin{aligned} \text{Capital Employed} &= \text{Assets} - \text{External Liabilities} \\ &= ₹60,00,000 - ₹20,00,000 \\ &= ₹40,00,000 \end{aligned}$$

$$\begin{aligned} \text{Normal profit} &= \text{Normal Rate of return} / 100 \times \text{Capital Employed.} \\ &= 10 / 100 \times ₹40,00,000 \\ &= ₹4,00,000 \end{aligned}$$

$$\text{Average profit} = ₹8,00,000$$

3  
marks

	<div>Super profit= Average profit- Normal profit = ₹8,00,000 - ₹4,00,000 = ₹4,00,000  Goodwill = ₹4,00,000 x 4 = ₹16,00,000.....<div><div>1/2</div></div></div> <div>[Note: if an examinee has calculated Super profit in part (i), there is no need for calculation of Super profit in part (ii)]</div>

25	Q. (a) Sanjay and Vijay were partners in a firm...
----	--

**Ans.**

## Books of Sanjay, Vijay and Babul Journal

Date	Particulars	L.F.	Dr. Amount (₹)	Cr. Amount (₹)
2025 Apr.1	Cash/ Bank A/c Dr. To Premium for goodwill A/c (Premium for goodwill brought in by Babul)		28,000	28,000
"	Premium for goodwill A/c Dr. To Sanjay's Capital A/c To Vijay's Capital A/c (Premium for goodwill transferred to Sanjay's and Vijay's Capital account in the sacrificing ratio)		28,000	19,000 9,000
"	Sanjay's Capital A/c Dr. Vijay's Capital A/c. Dr. To Cash/ Bank A/c (Cash withdrawn for 50% of their share of goodwill)		9,500 4,500	14,000
"	Sanjay's Capital A/c Dr. Vijay's Capital A/c Dr. To Revaluation A/c (Loss on revaluation debited to partners' capital accounts)		40,000 30,000	70,000
	General Reserve A/c Dr. To Sanjay's Capital A/c To Vijay's Capital A/c (General Reserve credited to partners' capital accounts)		28,000	16,000 12,000
	Cash/ Bank A/c Dr. To Babul's Capital A/c (Proportionate capital brought in by Babul)		4,00,000	4,00,000

### Working Note:

### Calculation of Sacrificing Ratio:

Sanjay's sacrifice =  $\frac{4}{7} - \frac{3}{10} = \frac{19}{70}$

Vijay's sacrifice =  $\frac{3}{7} - \frac{3}{10} = \frac{9}{70}$

Sacrificing Ratio= 19:9

### Calculation of goodwill

$$\text{Average profits} = (\text{₹}16,500 + \text{₹}17,500 + \text{₹}18,000) / 3 = \text{₹}17,500$$

Firm's goodwill = ₹17,500 x 4 = ₹70,000

Babul's share of goodwill =  $\frac{2}{5} \times ₹70,000 = ₹28,000$

### Calculation of Babul's proportionate capital

Capitals of Sanjay and Vijay after all adjustments= ₹3,50,000 + ₹2,50,000= ₹6,00,000

Babul's capital = ₹6,00,000  $\times \frac{5}{3} \times \frac{2}{5}$  = ₹4,00,000

 $\frac{1}{2}$

$$= ₹36,00,000 + ₹14,00,000$$

$$= ₹50,00,000 \dots\dots\dots \frac{1}{2}$$

$$\text{Debt} = ₹10,00,000 \dots\dots\dots \frac{1}{2}$$

$$\text{Total Assets to Debt Ratio} = ₹50,00,000 / ₹10,00,000 = 5 : 1 \dots\dots\dots \frac{1}{2}$$

**4 marks**

**Alternate Solution-**

$$\text{(i) Debt Equity Ratio} = \text{Debt} / \text{Equity} \dots\dots\dots \frac{1}{2}$$

$$\text{Debt} = \text{Long Term Borrowings} + \text{Long Term Provisions}$$

$$= ₹8,00,000 + ₹1,20,000$$

$$= ₹9,20,000 \dots\dots\dots \frac{1}{2}$$

$$\text{Equity} = \text{Share Capital} + \text{Reserves and Surplus}$$

$$= ₹24,00,000 + ₹6,00,000 = ₹30,00,000 \dots\dots\dots \frac{1}{2}$$

$$\text{Debt Equity Ratio} = ₹9,20,000 / ₹30,00,000 = 23:75 \text{ or } 0.31:1 \dots\dots\dots \frac{1}{2}$$

	<p style="text-align: center;"><b>PART B</b> <b>OPTION II</b> <b>(Computerised Accounting)</b></p>	
27	<p><b>Q. (a) The encryption of data facilitates.....</b></p> <p>Ans. (D) Codification</p> <p style="text-align: center;"><b>OR</b></p> <p><b>Q. (b) How many columns.....</b></p> <p>Ans. 29	<p><b>Q. What will be displayed.....</b></p> <p>Ans. (C) Correct a # Name Error</p>	<b>1</b> <b>mark</b>
30	<p><b>Q. (a) What is the outcome.....</b></p> <p>Ans. (B) Derived value</p> <p style="text-align: center;"><b>OR</b></p> <p><b>Q. (b) What value of range.....</b></p> <p>Ans. (A) False</p>	<p style="text-align: center;"><b>1 mark</b></p> <p style="text-align: center;"><b>OR</b> <b>1 mark</b></p>
31	<p><b>Q. State any three advantages.....</b></p> <p>Ans.</p> <p><b><u>Advantages of Computerised Accounting System: (ANY THREE)</u></b></p> <p>(i) Timely generation of reports and information in desired format ..... <math>\frac{1}{2}</math></p> <p>(ii) Efficient record keeping..... <math>\frac{1}{2}</math></p> <p>(iii) Ensures effective control over the system..... <math>\frac{1}{2}</math></p> <p>(iv) Economy in processing of accounting data..... <math>\frac{1}{2}</math></p> <p>(v) Confidentiality of data is maintained..... <math>\frac{1}{2}</math></p> <p><b><u>Disadvantages of Computerised Accounting System : (ANY THREE)</u></b></p> <p>(i) Faster obsolescence of technology necessitates investment in shorter period of time. .... <math>\frac{1}{2}</math></p> <p>(ii) Data may be lost or corrupted due to power interruption. .... <math>\frac{1}{2}</math></p> <p>(iii) Data are prone to hacking..... <math>\frac{1}{2}</math></p> <p>(iv) Un-programmed and un-specified reports cannot be generated..... <math>\frac{1}{2}</math></p>	<b>3 marks</b>

32	<p><b>Q. What are ‘Radar Charts’?.....</b></p> <p><b>Ans. Meaning:</b> A radar chart is a graphical tool in which data series or related data points are plotted in a chart. The data is multivariate as three or more quantitative are plotted. Each data series in chart has a unique colour or pattern.</p> <p><b>Purpose:</b> It is drawn for the comparison of highest and lowest value.</p>	<p>2 +  1 = <b>3 marks</b></p>
33	<p><b>Q. (a) Explain any two ways.....</b></p> <p><b>Ans. Ways in which Computerised Accounting System safeguards the secrecy of business data: (ANY TWO)</b></p> <p>(i) <b>Password Security:</b> (Explanation should include the following value points)</p> <ul style="list-style-type: none"> <li>▪ Only authorised person can access data.....<math>\frac{1}{2}</math></li> <li>▪ Ensures integrity.....<math>\frac{1}{2}</math></li> <li>▪ Uses binary decoding format.....<math>\frac{1}{2}</math></li> <li>▪ Widely accepted.....<math>\frac{1}{2}</math></li> </ul> <p>(ii) <b>Data Audit:</b> (Explanation should include the following value points)</p> <ul style="list-style-type: none"> <li>▪ Provides administrator rights.....<math>\frac{1}{2}</math></li> <li>▪ Avoids unauthorised access to data.....<math>\frac{1}{2}</math></li> <li>▪ Audits for correction of data.....<math>\frac{1}{2}</math></li> <li>▪ Displays all entries along with name of auditor, user and date and time of alteration to restrict alterations for window duration.....<math>\frac{1}{2}</math></li> </ul> <p>(iii) <b>Data Vault:</b> (Explanation should include the following value points)</p> <ul style="list-style-type: none"> <li>▪ Additional security for inputted information.....<math>\frac{1}{2}</math></li> <li>▪ Ensures preservation of original information.....<math>\frac{1}{2}</math></li> <li>▪ Its password cannot be broken.....<math>\frac{1}{2}</math></li> <li>▪ Some software uses encryption of data. ....<math>\frac{1}{2}</math></li> </ul> <p style="text-align: center;"><b>OR</b></p> <p><b>Q. (b) Name the table.....</b></p> <p><b>Ans.</b> The name of the table is ‘<b>Pivot Table</b>’ .....<math>\frac{1}{1}</math></p> <p><b><u>Reasons why this table is designed (ANY THREE) :</u></b></p> <p>(i) Querying large amounts of data in user friendly ways.....<math>\frac{1}{1}</math></p> <p>(ii) Creating Custom Calculations and formulas. ....<math>\frac{1}{1}</math></p> <p>(iii) Expanding and Collapsing levels of data to focus on results and providing from details to</p>	<p><b>4 marks</b></p> <p><b>OR</b></p> <p><b>4 marks</b></p>

	<p>the summary of data for areas of interest. ....1</p> <p>(iv) Moving rows to columns and columns to rows to see different summaries of the source data. ....1</p> <p>(v) Filtering, sorting, grouping and conditionally formatting the most useful and the interesting subset of data to enable focus on the wanted information. ....1</p> <p>(vi) Presenting concise attractive and annotated online or printed reports. ....1</p> <p>(vii) Report is used to analyse related totals when there is long list of figures to sum and compare several facts about each figure. ....1</p>	
34	<p><b>Q. Explain various options...</b></p> <p><b>Ans.</b> <u>Options available to change the alignment of the text in cells are: (with explanation)</u></p> <p><b>1. Text layout</b></p> <p>Vertical alignment – To specify the vertical position of the text in a shape, select an option from the list (or from the tool box). 1</p> <p>Text direction – To specify the orientation of the text in a shape, select an option from the list. 1</p> <p><b>2. Autofit</b></p> <p>Resize shape to fit text – To increase the size of the shape vertically so that the text fits inside of it, click this button. 1</p> <p><b>3. Internal margin</b></p> <p>The internal margin is the distance between the text and the border of a chart element. We can increase or decrease the amount of this space by using the following options.</p> <p>Left – To specify the distance between the left border of the selected chart element and the text, enter the margin number that we want in the Left box.</p> <p>Right – To specify the distance between the right border of the selected chart element and the text, enter the margin number that we want in the Right box.</p> <p>Top – To specify the distance between the top border of the selected chart element and the text, enter the margin number that we want in the Top box.</p> <p>Bottom – To specify the distance between the bottom border of the selected chart element and the text, enter the margin number that we want in the Bottom box. 3</p> <p>Columns – To specify the number of columns of text in a chart element and the spacing between the columns, click this button.</p>	

	<p>The commands for this</p> <ul style="list-style-type: none"> <li>• Select the range.</li> <li>• Click on Home tab for Alignment option which displays the dialog box and select the Alignment tab.</li> <li>• Select horizontal and vertical as alignment required.</li> <li>• There are other options to display text in angular orientation or text to be contained within cell or to spread within the cell.</li> <li>• Click OK.</li> </ul>	<p>=</p> <p><b>6 marks</b></p>
