

	<p style="text-align: center;">MARKING SCHEME STRICTLY CONFIDENTIAL (For Internal and Restricted use only) Senior Secondary School Examination, 2026 (XIIth) SUBJECT NAME: - ACCOUNTANCY Q.P. CODE 67/3/1</p>
	General Instructions:
1	The CBSE has decided to introduce On Screen Marking (OSM) for the evaluation of Class XII answer Book with the 2026 Examination.
2	You are aware that evaluation is the most important process in the actual and correct assessment of the candidates. A small mistake in evaluation may lead to serious problems which may affect the future of the candidates, education system and teaching profession. To avoid mistakes, it is requested that before starting evaluation, you must read and understand the spot evaluation guidelines carefully.
3	“Evaluation policy is a confidential policy as it is related to the confidentiality of the examinations conducted, evaluation done and several other aspects. Its leakage to public in any manner could lead to derailment of the examination system and affect the life and future of millions of candidates. Sharing this policy/document to anyone, publishing in any magazine and printing in Newspaper/Website, etc. may invite action under various rules of the Board and IPC.”
4	Evaluation is to be done as per instructions provided in the Marking Scheme. It should not be done according to one’s own interpretation or any other consideration. Marking Scheme should be strictly adhered to and religiously followed. However, while evaluating, answers which are based on latest information or knowledge and/or are innovative, they may be assessed for their correctness otherwise and due marks be awarded to them. In Class-XII, while evaluating two competency-based questions, please try to understand given answer and even if reply is not from marking scheme but correct competency is enumerated by the candidate, due marks should be awarded.
5	The Marking scheme carries only suggested value points for the answers. These are in the nature of Guidelines only and do not constitute the complete answer. The students can have their own expression and if the expression is correct, the due marks should be awarded accordingly.
6	The Head-Examiner must go through the first five answer books evaluated by each evaluator on the first day, to ensure that evaluation has been carried out as per the instructions given in the Marking Scheme. If there is any variation, the same should be zero after deliberation and discussion. The remaining answer books meant for evaluation shall be given only after ensuring that there is no significant variation in the marking of individual evaluators.
7	Evaluators will mark (✓) wherever answer is correct. For wrong answer CROSS ‘X’ be marked. Evaluators will not put right (✓) while evaluating which gives an impression that answer is correct and no marks are awarded. This is most common mistake which evaluators are committing.
8	If a question has parts, please award marks on the right-hand side for each part in the OSM Portal. Marks awarded for different parts of the question will be totaled up by the OSM System.

9	If a question does not have any parts, marks must be awarded in the left-hand margin in the OSM Portal. This may also be followed strictly.
10	No marks to be deducted for the cumulative effect of an error. It should be penalized only once.
11	A full scale of marks 80 has to be used. Please do not hesitate to award full marks if the answer deserves it.
12	Every examiner has to necessarily do evaluation work for full working hours i.e., 8 hours every day and evaluate 20 answer books per day in main subjects and 25 answer books per day in other subjects (Details are given in Spot Guidelines). This is in view of the reduced syllabus and number of questions in question paper.
13	<p>Ensure that you do not make the following common types of errors committed by the Examiner in the past :-</p> <ul style="list-style-type: none"> • Answers marked as correct, but marks not awarded. (Ensure that the right tick mark is correctly and clearly indicated. It should merely be a line. Same is with the X for incorrect answer.) • Half or a part of answer marked correct and the rest as wrong, but no marks awarded.
14	While evaluating the answer books if the answer is found to be totally incorrect, it should be marked as cross (X) and awarded zero (0) Marks.
15	The Examiners should acquaint themselves with the guidelines given in the “ Guidelines for Spot Evaluation ” before starting the actual evaluation.
16	The candidates are entitled to obtain photocopy of the Answer Book on request on payment of the prescribed processing fee. All Examiners/Additional Head Examiners/Head Examiners are once again reminded that they must ensure that evaluation is carried out strictly as per value points for each answer as given in the Marking Scheme.
17	<p>In Part A, for questions having two options/alternatives, where only one option/ alternative is required to be attempted:</p> <ul style="list-style-type: none"> • If the candidate has attempted both the options/alternatives, the Evaluator shall award marks in both the options/alternatives. The system will take the higher of two scores and disregard the other response. • If a candidate has attempted only one option/alternative, then the evaluator shall mark “NA” (Not Attempted) against the option/alternative that has not been attempted by the candidate.
18	In Part B , for questions having two options/alternatives, where only one option/alternative is required to be attempted, if the candidate has attempted both the options/alternatives, the evaluator shall award marks in the option/alternative where the candidate has scored higher marks and disregard the other response. The system will NOT take the higher of two scores.
19	<p>In Part B Step marking,</p> <ul style="list-style-type: none"> • Questions of Option I (Analysis of Financial Statements) are numbered as: B_I_27, B_I_28 B_I_34 and • Questions of Option II (Computerised Accounting) are numbered as: B_II_27, B_II_28 B_II_34
20	In Part B , if a candidate has attempted both Option I (Analysis of Financial Statements) and Option II (Computerised Accounting), where only one option is required to be attempted, the evaluator shall award marks in both options (I and II). The system will take the higher of the two scores (Option I or Option II) and disregard the other response.

31.	<p>Q. Explain Sequential Code and Block Codes</p> <p>Ans</p> <p>Sequential Codes</p> <ul style="list-style-type: none">Numbers and/or letters are assigned in consecutive order. These codes are applied primarily to source documents such as cheques, invoices etc. (½)This process enables in either identification of missing codes (numbers) relating to a particular document or a relevant document can be traced on the basis of cod (½)Example<table><tr><td>CODES</td><td>ACCOUNTS</td></tr><tr><td>CL001</td><td>GCERT LTD</td></tr><tr><td>CL002</td><td>XYZ LTD</td></tr><tr><td>CL003</td><td>ARIL CORPORATION OF INDIA</td></tr></table>(½) <p>Block Codes</p> <ul style="list-style-type: none">In a block code, a range of numbers is partitioned into a desired number of sub ranges and each sub-range is allotted to a specific group. (½)In most of the uses of block codes, numbers within a sub-range follow sequential coding scheme, i.e. numbers increase consecutively. (½)Example<table><tr><td>CODES</td><td>DEALER-TYPE</td></tr><tr><td>100-199</td><td>Small Pumps</td></tr><tr><td>200-299</td><td>Medium Pumps</td></tr><tr><td>300-399</td><td>Pipes</td></tr><tr><td>400-499</td><td>Motors</td></tr></table>(½)	CODES	ACCOUNTS	CL001	GCERT LTD	CL002	XYZ LTD	CL003	ARIL CORPORATION OF INDIA	CODES	DEALER-TYPE	100-199	Small Pumps	200-299	Medium Pumps	300-399	Pipes	400-499	Motors	<p>3 Marks</p>
CODES	ACCOUNTS																			
CL001	GCERT LTD																			
CL002	XYZ LTD																			
CL003	ARIL CORPORATION OF INDIA																			
CODES	DEALER-TYPE																			
100-199	Small Pumps																			
200-299	Medium Pumps																			
300-399	Pipes																			
400-499	Motors																			
32	<p>Q. What are the three categories ...</p> <p>Ans</p> <p>The three types entries are:</p> <p>1. Opening Entry: (½)</p> <p>In order to begin the new financial year, balances of accounts of the previous year are brought forward. For this opening entry in journal is recorded. All those accounts which show the assets of a business are debited and all the accounts showing amounts owned by the business are credited. (½)</p> <p>2. Closing Entry: (½)</p> <p>The entries required to make the trading account and profit and loss account are known as closing entries because their effect is to close the books of account for the year concerned. (½)</p>																			

	<p>3. Adjusting Entry: (½)</p> <p>The adjusting entry is recorded to relate the figures to the trading period. The amounts which are outstanding or prepaid and the incomes which are accrued or received in advance are recorded with the help of this entry. (½)</p>	3 Marks
33 (a)	<p>Q. List the necessary information ...</p> <p>Ans.</p> <p>In the company creation screen the following information is filled.</p> <ol style="list-style-type: none"> 1. Company name: In the name field the company's name is filled which is displayed at all company selection lists and internal documents (½) 2. Company mailing address (½) 3. Company address (½) 4. Income tax number allotted by the income tax department. (½) 5. Accounting module: To maintain financial accounts only at maintain field, select accounts only. (½) 6. Financial year: At financial year field: entered the beginning and closing date of the financial year (½) 7. Saving the company profile: Finally, the software asks for the permission to save the company profile; after receiving confirmation the company profile is saved in data bank. (1) 	4 Marks
	OR	
33 (b)	<p>Q. What is a Chart/Graph...</p> <p>Ans.</p> <p>A chart or graph is a pictorial Presentation of data. (1)</p> <p>Advantages:</p> <p>Help to Explore: (½)</p> <p>Many times we would like to see if there is a relationship between variables. Suppose, that we wanted to determine if there is a relationship between: a country's GNP and the infant mortality rate, between age and between genders. It may be quicker and easier to create a chart immediately to see the possible relationship of variables to one another, rather than paging through raw data. (½)</p> <p>Help to Present: (½)</p> <p>We want to provide information in as little time as possible. Graphing plays a key role. It seems that there is no longer any time to sit and read a newspaper in order to find out what is going on. However, newspapers, such as The Economics Times and India Today magazines (which were early users of charting techniques), seem to understand this phenomena and provide graphs to convey and sum up ideas that they are making in their articles. (½)</p> <p>Help to Convince: (½)</p> <p>The same way that a graph can be used to present and explore different characteristics of data. it can also be used to convince. Graphs have the ability to take large amounts of information and make them into exhibitions that are easily used to persuade. (½)</p>	4 Marks

34	<p>Q. A user wishes to change ...</p> <p>Ans. To change the text in chart element one can use regular text formatting options, or we can apply a Word Art format</p> <p>To use regular text formatting options (½)</p> <ol style="list-style-type: none"> 1. Click the chart element that contains the text to format (½) 2. Right click the text or select the text to format, and then do one of the following <ul style="list-style-type: none"> • Click the formatting options that one want on the Mini toolbar (½) • On the home tab, in the font group, click the formatting buttons that we want to use. (½) <p>To use Word Art styles to format text use chart elements in the following steps. (½)</p> <ol style="list-style-type: none"> 1. In a chart, click the chart elements that contains the text to be changed or do the following to select the chart element from a list of chart elements. (½) 2. Click anywhere in the chart. (½) 3. This displays the chart tools, adding design, layout and format tabs. (½) 4. On the format tab, in the current selection group, click the arrow next to the chart element box and then select the chart element to be formatted. (1) 5. On the format tab, in the WordArt styles groups do one of the following select any from the given options Text fill, Text outline, Shadow, 3D formats, 3D rotation, text box. (1) 	6 Marks
