Ans 10 Yes, I agree that 'Lost Spring' explains the grinding poverty and traditions that condemn thousands of people to a life of abject poverty.

Lost Spring consists of two stories about Sahel who is a ragpicker and Mukesh who works in bangle

making factories

Sahab ~~was~~ ^{was} very poor and everyday searched for 'gold' in the garbage. He didn't have any pair of shoes and he and his friends walked barefoot searching the garbage dumps. Ans 11

It is simply self-absorption of the general in the matter of the enemy soldier.

The general had promised Dr Sadao that he would send private assassins to kill the prisoner ~~when~~ to get rid of the prisoner. But eventually he forgot ~~this~~ He was so self absorbed that he forgot about the assassins. He was more worried about his health than about Dr Sadao's problem.

He didn't want to lose Dr Sadao's medical help as he was ill and could have attack anytime. That's why he hadn't sent Dr Sadao for helping the injured soldiers. He believed in only Dr Sadao and no other doctor and couldn't afford to lose him. Mobile Phone - a boon or a bane

By Krishna

Mobile Phones; such objects everyone must have seen and must be using it. Mobile phones have become such an integral part of our life that it is very difficult to get rid of them. But is it a boon or a bane?

Most people would consider mobile phones as a boon as it helps in communicating with people. Because of this, we know the whereabouts of our

family youngsters and members. It is a boon as it helps to assure the people about the security of their loved ones who are out as one can't carry a landline connection outside. It helps ~~us~~ in communicating with our distant relatives ~~in~~ outside the country. But ~~to~~ students going for classes are able to connect with their family in case of an emergency.

But ~~it~~ mobile phones have their negative aspects too. People sometimes misuse it and can prove to be a curse for some people. We see so many instances of MMS scandals occurring ~~where~~ ^{in which} innocent girls get caught. This leads to so much humiliation for the family. Expensive ~~mobile~~ phones have access to internet as well, thus making way for cyber crime as well. Moreover mobile phones are harmful for our health. Some studies have reported that sleeping with the mobile phones nearby have caused brain tumours in some people.

both

Thus, mobile phones have ^{both} positive and negative aspects. To abolish it completely would render us cutoff from the people. But it should not be used so much also. Moreover, police should be vigilant to avoid SMS scandals. People should not trust unknown people easily by giving their mobile numbers. Also, while using mobile phones in crowded places one should be extra vigilant to avoid any theft. Last but not the least, prevention is in our own hands. We should thus be vigilant and careful enough to avoid misuse of applications of phones by other people.
